The screenshot displays the Umbrello UML Modeller interface. The main workspace shows a deployment diagram with the following components and relationships:

- Nodes:**
 - `: ordersDB` (Database)
 - `: order server` (Server)
 - `: customer system` (System)
 - `: order system` (System)
 - `: mom server` (Server)
 - `: mailserver` (Server)
- Relationships:**
 - `: order server` is connected to `: ordersDB` by a dashed line.
 - `: order server` is connected to `: customer system` by a solid line.
 - `: order server` is connected to `: mom server` by a solid line.
 - `: mailserver` is connected to `: mom server` by a solid line.
 - `: order system` is connected to `: mom server` by a solid line.

The left sidebar contains the following panels:

- Stereotypes:** A table with two rows: 'folder' with usage '1', and 'datatype' with usage '11'.
- Tree View:** A hierarchical tree showing the project structure, including 'customer system', 'mailserver', 'mom server', 'order server', 'order system', 'ordersDB', 'Deployment View', 'deployment diagram', and 'Entity Relationship Model'.
- Debug:** A list of debuggers with checkboxes: 'umlwidgets', 'umbrello' (checked), 'cppparser', 'dialogs' (checked), 'codeimport' (checked), 'refactoring' (checked), and 'umlmodel' (checked).
- Documentation:** A panel for the 'mom server' component.

The bottom status bar shows 'deployment diagram' and zoom settings '100% Fit 100%'. The Windows taskbar at the very bottom shows the date '07:25 PM 09-11-23' and the temperature '29°C Mostly cloudy'.
